PROFESSIONAL SUMMARY

Recent Computer Science graduate with a strong foundation in programming, web development, databases, and problem-solving. Experienced in developing academic projects using technologies such as HTML, CSS, JavaScript, Python, and MySQL. Eager to expand my technical skills and gain hands-on experience in a professional work environment. A fast learner, collaborative team player, and adaptable to new technologies, with a passion for contributing to the development of innovative and impactful technology solutions.

Education

Bachelor of Computer Science

University taif

Graduation: 2026

Academic Projects

IntelliSat – AI-Based Satellite Failure Prediction System

- Built an AI system to predict satellite failures from telemetry data using **Random Forest, XGBoost, Gradient Boosting, Decision Tree, SVM, and Logistic Regression**.
- Achieved **96.5% accuracy and 0.968 ROC-AUC** with Random Forest on 9,000+ operational samples.
- Developed an interactive dashboard, **Flask REST API**, and automated alerts for failure probabilities above **80%**.
- Tech:** Python, Scikit-learn, XGBoost, Pandas, Flask, PHP, MySQL, JavaScript.

Skills

Programming Languages:

Python, JavaScript, PHP, HTML5, CSS3

Database Management:

MySQL

Web Development:

HTML, CSS, JavaScript, Responsive Web Design

Tools & Technologies:

Git, GitHub, Visual Studio Code, XAMPP, TensorFlow, Google Colab

Core Computer Science:

Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Design, Software Engineering, Computer Networks

Soft Skills:

Problem Solving, Teamwork, Communication, Fast Learner, Time Management, Adaptability

Languages

Arabic

English
